

ARRANGEMENT ON CHINESE LANGUAGE LEARNING FOR NCS STUDENTS

Dear Parents,

To assist non-Chinese speaking (NCS) students to perform better learning in Chinese language, our School will be adapting the measure of NCS students from their classes on Chinese lessons into **pullout groups (P1-P6)** regarding their grades this school year. Details of the arrangement are as follows:

1. Lesson arrangement : pullout learning will be carried out on Chinese lessons. NCS students will be receiving tutorials by Chinese teacher in charge in respect of listening, speaking, reading and writing aspects, aiming to enhance their ability in understanding the learning content of Chinese language for a good learning foundation. Following is the grouping of **pullout groups (P1-P6)** on Chinese lessons:

Grade	No. of pullout group(s)	No. of students of each group
P1-P6	1 for each grade	2-6 (depends on the number of NCS students)

2. Curriculum : a school-based curriculum matched with the levels of NCS students will be prepared individually regarding their Chinese learning. Textbook content will be merged into teaching, complementing learning objectives, to comprehensively enhance their listening, speaking, reading and writing skills.
3. Assignments : to be accommodating pullout programmes.
4. Assessments : other than the three school exams, NCS students will be receiving regular assessments on their learning progress.
5. A meeting between parents and Chinese teacher will be arranged on Parent’s day to allow parents possess knowledge of students’ learning progress and to discuss a better way to assist them.
